

About Future Industrial Services Ltd

Future Industrial Services is one of the largest providers of liquid waste removal; industrial services such as tank and interceptor cleaning; labour provision to industry; hazardous waste removal; oil/water separation and specialist metal recovery. We are a national company with a Head Office depot in Liverpool and depots from Plymouth to Berwick-Upon-Tweed.

The Role

We are looking for two experienced Jetvac Driver Operatives to augment our Jetvac Team based in Honiton, Devon. The role involves driving a rigid LGV Jetvac lorry and carrying out site cleaning operations such as sewer and tank cleans as well as gully and lagoon cleans. Most of the work is outdoors but also includes working in confined spaces. Safety is a key element of the role and you will be responsible for the safe operation of all equipment to ensure the safety of yourself and colleagues working with you as well as others in the vicinity.

About You

To apply for the role of Jetvac Driver Operative you must have an LGV Class 2 (Cat C) driving licence valid for the UK. Experience of operating a high pressure jetting and deep suction Jetvac unit is not essential but is preferred. You must be prepared to work outdoors and to work in confined spaces including sewers.

What We Provide

If not already held, we will provide training in working in confined spaces to City & Guilds standards. We will also provide training to operate the Jetvac and high pressure water jetting. We offer a competitive hourly rate of pay of £10.50 PH for a fully trained operative with good overtime opportunities plus a bonus scheme and company pension.
